Build Your Custom ZR-40 or ZR-60 Suit

SUIT MEASUREMENTS

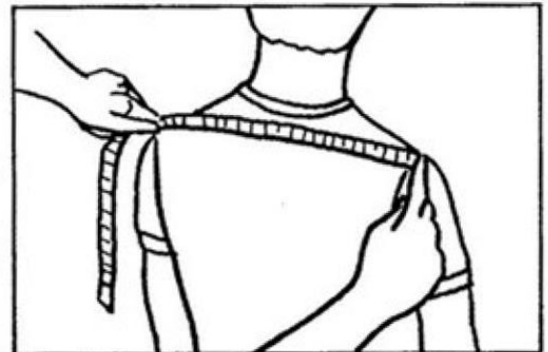

Your care in reading these instructions carefully will ultimately determine the fit of your suit.

- Please take all the measurements requested on this form carefully and precisely.
- Ensure to take the measurement in Inches.
- Stand erect, ask someone to help measure you with a fabric measuring tape.
- The measurements should be taken wearing standard fitting clothing.
- Do not allow for any tolerances and ensure pockets are empty with shirt tucked in. Make sure the belt of your pants is sitting where you want your belt on the suit to go.

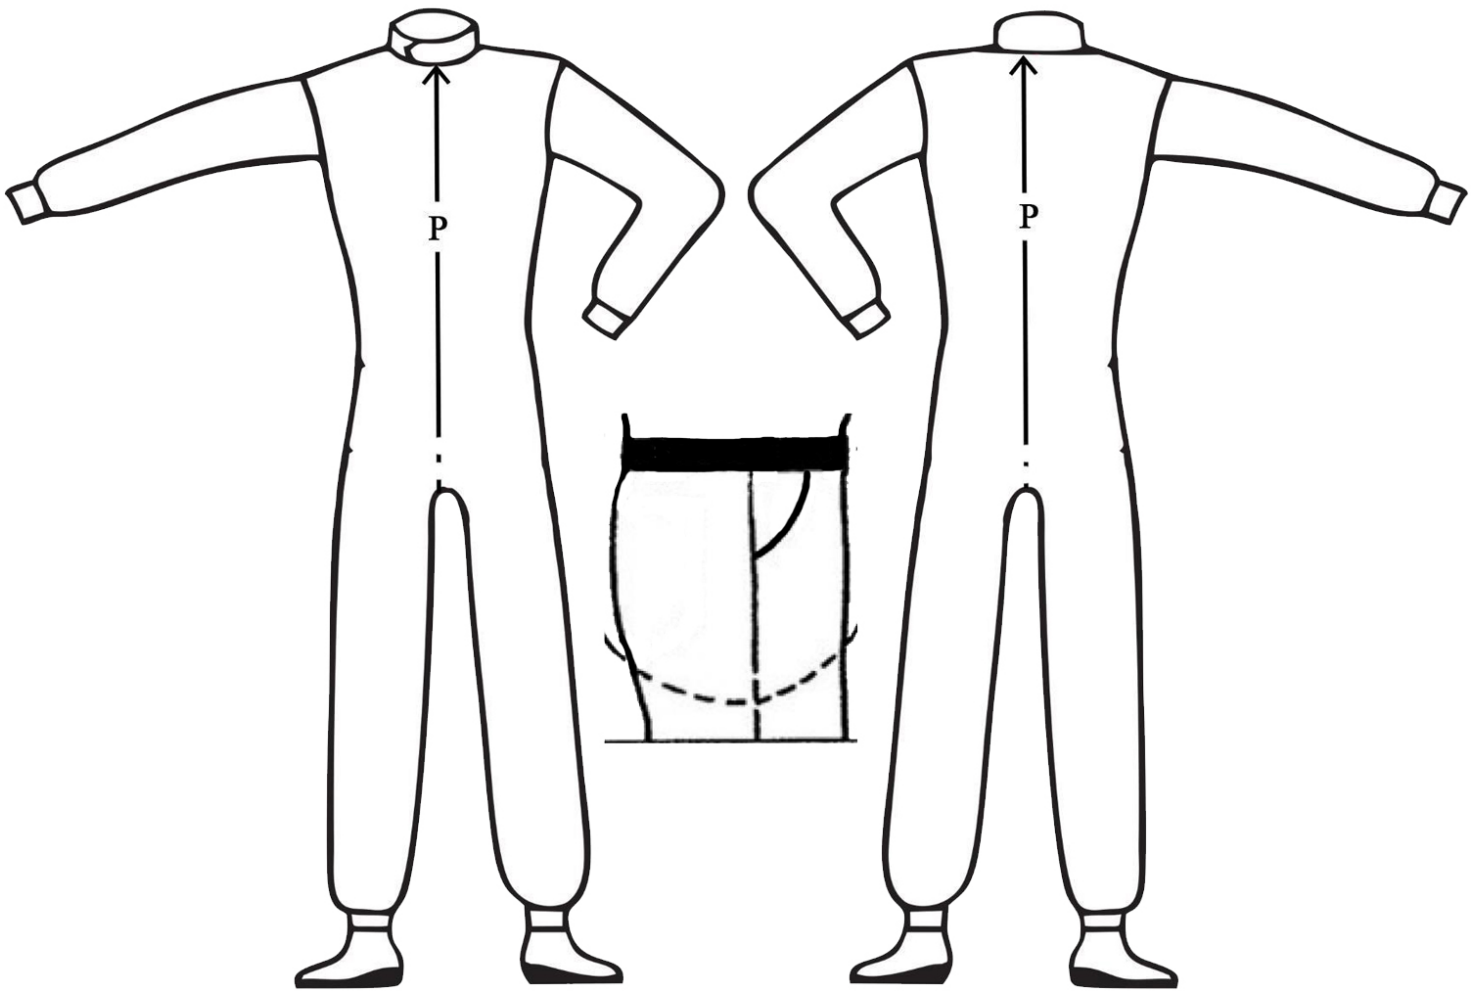

Diagram# 01

B Sleeve - Measure from prominent bone at base of neck behind bent elbow to wrist, with arms forward.

D Shoulder - Measure across back shoulder bone to shoulder bone.

(P) Crotch - Measure from front neck to back neck
